

Driving Assessments

Who is the course for?

This programme is intended to review the driving ability of your existing drivers and provide remedial training where necessary.

Delivery

Driving assessments generally last for 1-2 hours per candidate.

Course Outline

We concentrate on the safe handling of the vehicle, together with the driver's ability to drive defensively, i.e. to recognise hazards in good time and implement plans to deal with them.

Towards the end of the assessment/training day the driver will be reviewed. Any aspects of their driving that is not to a safe standard will be identified and confirmed in a confidential report directly to you.
